

Dear Parent/Carer

Your child has been working hard on the Values, Money and Me programme. She/he is bringing this activity home in the hope you can do some learning together that they can take back into school.

The unit we have been working on is called Finders Keepers. The lessons in this unit for KS1 are:

Lesson 1 Dale & Kyle's Dilemma

Children explore the law in relation to found money.

Pupils consider what the boys should do and explore reasoning skills to help make moral decisions.

Lesson 2 You Decide

Using familiar scenarios involving found money or objects, children determine their own moral stance, what is acceptable and what is unacceptable and why.

Lesson 3 Good Neighbours

Children explore the value of relationships, considering what makes a good neighbour and how this might impact on their behaviour toward others.

We would like you to do the following activities if it is practical (or more if you wish)

- Read the Finders Keepers interactive story online with your child.
- This can be found at: www.valuesmoneyandme.co.uk/teachers/finders-keepers-ks1
- or read the story sheets provided by the teacher.
